

§ 21.26

47 CFR Ch. I (10–1–04 Edition)

cases of emergency where the Commission finds that it would not be feasible to secure renewal applications from existing licensees or otherwise to follow normal licensing procedure, the Commission will grant construction permits and station licenses, or modifications or renewals thereof, during the emergency found by the Commission or during the continuance of any such national emergency or war, as special temporary licenses, only for the period of emergency or war requiring such action, without the filing of formal applications.

[44 FR 60534, Oct. 19, 1979, as amended at 48 FR 27252, June 14, 1983; 52 FR 37779, Oct. 9, 1987]

PROCESSING OF APPLICATIONS

§ 21.26 Receipt of applications.

Applications received by the Commission are given a file number for administrative convenience, which does not indicate the acceptance of the application for filing and processing. After preliminary review those applications covered by § 21.27(a) that appear complete will be put on public notice as accepted for filing. Neither the assignment of a file number nor the listing of the application on public notice as accepted for filing indicates that the application has been found acceptable for filing or precludes the subsequent return or dismissal of the application if it is found to be defective or not in substantial compliance with the Commission's rules.

[52 FR 37779, Oct. 9, 1987]

§ 21.27 Public notice period.

(a) At regular intervals, the Commission will issue a public notice listing:

- (1) The acceptance for filing of applications and major amendments thereto;
- (2) Significant Commission actions concerning applications;
- (3) The filing of certifications of completion of construction;
- (4) The receipt of applications for minor modifications made pursuant to § 21.41;
- (5) Information which the Commission in its discretion believes of public significance; and

(6) Special environmental considerations as required by part 1 of this chapter.

(7) The BTAs designated for licensing through the competitive bidding process and the filing date for short-form applications for those areas;

(8) The auction winners in the competitive bidding process;

(b) A public notice will not normally be issued for any of the following applications:

(1) For authorization of a minor technical change in the facilities of a proposed or authorized station where such a change would not be classified as a major amendment to a pending application, as defined by § 21.23, or as a minor modification to a license pursuant to § 21.41;

(2) For temporary authorization pursuant to § 21.25;

(3) For an authorization under any of the proviso clauses of section 308(a) of the Communications Act of 1934 (47 U.S.C. 308(a));

(4) For consent to an involuntary assignment or transfer of control of a radio authorization; or

(5) For consent to a voluntary assignment or transfer of control of a radio authorization, where the assignment or transfer does not involve a substantial change in ownership or control.

(c) Except as otherwise provided in this part (e.g., § 21.41), no application that has appeared on public notice will be granted until the expiration of a period of thirty days following the issuance of the public notice listing the application, or any major amendment thereto, or until the expiration of a period of thirty days following the issuance of a public notice identifying the tentative selectee of a random selection process, whichever is later.

(d) Notwithstanding any other provisions of this part, effective as of September 17, 1998, there shall be one one-week window, at such time as the Commission shall announce by public notice, for the filing of applications for high-power signal booster station, response station hub and I channels point-to-multipoint transmissions licenses, during which all applications shall be deemed to have been filed as of the same day for purposes of §§ 21.909,
